General Comment:

Environmental**Waste Management:**

| Type | Management | Condition | GPS (Lat) | (Long) |
|-------------------|--|-----------|-----------|------------------|
| Drill Cuttings | Land Application | Adequate | | |
| Comment | COGCC followup inspection to Sandy Hill Land Application site. Cuttings and drilling fluid has been incorporated. Recent rain has generated overland flow of water and drilling mud with site soil. Berms on western edge of site have been breached, but stormwater and sediment was contained in the perimeter ditch. No additional offsite impacts were observed. | | | |
| Corrective Action | Inspection and maintain stormwater controls to prevent further degradation of controls and to prevent offsite impacts results from stormwater flow. Perform corrective actions by deadline or prior to next storm event. | | | Date: 06/05/2018 |

Spill/Remediation:

| | | | | |
|--------------------|--|--|--|------------------|
| Comment: | See photos of spill areas. Grass is growing through both spill areas. | | | |
| Corrective Action: | Submit status update via email or via Form 27 Supplemental for cleanup of Winick property. | | | Date: 06/29/2018 |
