Comment:

Form 4 sundry notice to place this well into TA status and pressure test was resubmitted on 04/24/2018. In addition, as per our BBC production accounting group, production tanks were emptied during November 2017, which is why 44.06 BBLs of production was reported - due to pushing all of the production from the separators to the tanks.

COGCC Decision: Approved via an AMI
