 TOTAL % OF DESIRABLE VEGETATION COVER _____
 VEGETATIVE COVER _____

Comment:

This location is not in compliance with Rule 1004 standards. Appears there was a disturbance located just west of the well location. This disturbance area (0.17 acres) is still evident, as stunted corn growth was observed. Operator shall collaborate with the landowner to determine mitigating measures that will allow reclamation work to be conducted in such a manner as to not interfere with agricultural activities or crop production. Please refer to the attached inspection photos for more detail.

Operator shall submit a Form 4 Final Reclamation Complete notice when the location meets Rule 1004 standards. COGCC may conduct follow-up inspections prior to receiving said notice to ensure compliance with Rule 1004.

Corrective Action: **Comply with Rule 1004 standards.**

Date **06/11/2018**

Overall Final Reclamation **Fail** Well Release on Active Location Multi-Well Location

COGCC Comments

Comment	User	Date
Other disturbance areas, well location and access road, appear to meet Rule 1004 standards.	binschusc	06/12/2018
COGCC Staff contacted and communicated to the Operator the observations stated above. Operator will plan to meet with the surface owner regarding the stunted growth.	binschusc	06/12/2018
The corrective date is not intended to be the date for which the Operator shall comply with Rule 1004 but rather the corrective date is the date the location was observed out of compliance.	binschusc	06/12/2018
This well had a shared offsite tank battery located to the west which will be addressed in a separate inspection.	binschusc	06/12/2018
