If this gas meter run is from a midstream company, please provide which midstream company that is.	binschusc	06/06/2018
The corrective date is not intended to be the date for which the Operator could potentially provide information regarding the equipment that remains at the location but rather the corrective date is the date the location was observed out of compliance. Operator is responsible for removing all equipment from the location per Rule 1004.	binschusc	06/06/2018
