RE: Rule 317.s. – Consent to Statewide Fracture Stimulation Setback  
Hingley 1C-18H-A167 Well

Dear John,

Crestone Peak Resources Operating LLC ("Crestone") as Operator, is proposing to drill the following proposed well located in Weld County, Colorado:

Hingley 1C-18H-A167 (the "Well") SHL: 514' FNL & 597' FEL BHL: 460' FSL & 2145' FEL (WLC attached)

This Well will pass within 104' of the Lauridson VV 18-4J; API No. 05-123-17406, operated by Kerr-McGee Oil & Gas Onshore, LP ("KMG").

Colorado Oil and Gas Conservation Commission (COGCC) Rule 317.s provides:

**s. Statewide Fracture Stimulation Setback.**

(1) No portion of a proposed wellbore's treated interval shall be located within 150 feet of an existing (producing, shut-in, or temporarily abandoned) or permitted oil and gas wellbore's treated interval belonging to another operator without the signed written consent of the operator of the encroached upon wellbore. The signed written consent shall be attached to the Application for Permit-to-Drill, Form 2 for the proposed wellbore.

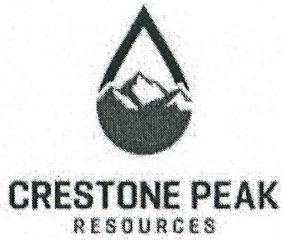

(2) The distance between wellbores measurement shall be based upon the directional survey for drilled wellbores and the deviated drilling plan for permitted wellbores, or as otherwise reflected in the COGCC well records. The distance shall be measured from the perforation or mechanical isolation device.

Please evidence KMG's written consent for the location of the Hingley 1C-18H-A167 well and return this letter to Sheila Frazier at [sheila.frazier@crestonepr.com](mailto:sheila.frazier@crestonepr.com) at your earliest convenience. Thank you and please contact me at 720.410.8480 with any questions.

Sincerely,

*Sheila Frazier*
