Photo 1: Photo taken from the west end of the location, facing northeast. Photos 1-3 provide an overview of the location from northeast, east, to south. Photos show that the pit on the south end of the location appears to be the only area of the location where topsoil has been salvaged. Photos show operator has not salvaged topsoil from the remaining Oil and Gas location during construction operations; various equipment, including the drilling rig, have been set up, and have operated directly upon the surface of the topsoil.
