RE: CLASS V UIC PROGRAM
Rule Authorization: Aquifer Remediation Well
Change in Operation
Kerr McGee Anderson 41-27/Bohlender 2-27
Production Facility
NWNW Section 27, T4N R65W
La Salle, Colorado
EPA File #CO50000-10228

Dear Mr. Schneider:

The Environmental Protection Agency Region 8 Underground Injection Control Program staff has reviewed the application that was submitted by you or on your behalf for the Class V aquifer remediation injection well(s) at the above referenced location. Based on our understanding of the proposed program and limited potential for groundwater contamination, we have determined that a permit is not necessary at this time. Therefore, the change(s) proposed is currently "authorized by rule" in accordance with Title 40 Code of Federal Regulations (40 CFR) Sections 144.24 and 144.84(a). This authorization is based on information provided in your application and is valid for:

Injecting of air into 3 air sparge wells on site, in a manner as described in your application, and is limited to the location(s) indicated in the application that we received on October 28, 2016.

All injection wells are regulated under the UIC Program in accordance with 40 CFR Parts 144 and 146, which have been promulgated under Part C of the Safe Drinking Water Act, 42 United States Code Sections 1421 through 1428. Your Class V injection well(s) is subject to periodic compliance inspections which may include sampling and analysis of your fluids. Finally, be aware that under 40 CFR Sections 144.12(c), (d), and (e), the EPA can require you to apply for a permit or close your injection well(s) under certain circumstances.

Please notify us if the potential for groundwater contamination increases. If you intend to change the proposed plan, please notify us in advance. Any changes in operating methods or any other conditions that may adversely impact groundwater MUST be approved in advance by the EPA. Failure to comply with the above requirements will result in violations of UIC regulations and possible enforcement actions and penalties.

Please be advised that this rule authorization, change in operations, pertains solely to the UIC Program and does NOT relieve you from satisfying any other federal, state or local regulations that may apply.

Please contact Dennis Hotovec at (800) 227-8917, extension 312-6582 or (303) 312-6582, if you have any questions or need more information. More information on the EPA Region 8 Class V program can also be found online at: <http://www.epa.gov/uic>

Sincerely,

A handwritten signature in black ink, appearing to read "Douglas Minter", with a long horizontal line extending to the right.
