Inspector Name: Binschus, Chris

Corrective Action:

Good Housekeeping:

Type	Satisfactory/Action Required	Comment	Corrective Action	CA Date
WEEDS	ACTION REQUIRED	Tank battery location was mowed within 2 days prior to this inspection; however, mowing by itself is not a sufficient control for mature Diffuse knapweed during this time of year. Mature Diffuse knapweed individuals were observed along the perimeter of the mowing area. Knapweed seed heads were observed in the mowed cutting areas. Refer to attached photos in Document #682401241.	Operator instructed on 8/25/16 to pull and bag remaining plants in areas that were not mowed. Operator instructed on 8/30/16 to collect, remove, and dispose weed debris and seed heads properly from areas that were mowed. Also, on 8/30/16, the 2-week corrective action date was set to perform the corrective actions.	09/13/2016

Spills:

Photo 6: A clip from Inspection #682401240 dated 8/25/2016 documenting Diffuse Knapweed concerns and requiring management.
