Dream Weaver
Rule 318A.a.(1), (2) waiver
Rule 318A.c.(2)
Page 2 of 3

Dear Mr. File:

Crestone Peak Resources Holdings LLC ("Crestone") staked the Dream Weaver Wells at surface locations as notated above ("Wells"). These Wells are being drilled under the rules and regulations of the Colorado Oil and Gas Conservation Commission's ("COGCC") Rule 318A known as the Greater Wattenberg Area Special Well Location, Spacing and Unit Designation Rule. This rule states that all boundary infill wells be drilled from the same surface locations as previously designated in Rule 318A.a.(1), (2) which reads:

"The Greater Wattenberg Area ("GWA") is defined to include those lands from and including Townships 2 South to 7 North and Ranges 61 West to 69 West, 6th P.M. In the GWA, operators may utilize the following described surface drilling locations (GWA windows") to drill, twin, deepen, or recomplete a well (GWA well") and to commingle any or all of the Cretaceous Age formations from the base of the Dakota Formation to the surface:

- (1) A square with sides four hundred (400) feet in length, the center of which is the center of any governmental quarter-quarter section ("400' window");
- (2) A square with sides eight hundred (800) feet in length, the center of which is the center of any governmental quarter section ("800 window").

Additionally, Rule 318A.c.(1) states:

"A new surface well location shall be approved in accordance with Commission rules when it is less than fifty (50) feet from an existing surface well location."

Rule 318A.c.(2) states:

"When the operator is requesting a surface well location greater than fifty (50) feet from a well (unless safety or mechanical considerations of the well to be twinned or topographical or surface constraints justify a location greater than fifty (50) feet), the operator shall provide a consent to the exception signed by the surface owner on which the well is proposed to be located in order for the Director to approve the well location administratively."

As the Wells were staked at locations greater than fifty (50) feet from existing wells and outside of the defined 400' and/or 800' drilling windows, Crestone respectfully requests your consent to an exception location for these Wells per COGCC Rule 318A.c.(2) and 318A.a.(1), (2).

THE UNDERSIGNED SURFACE OWNER HEREBY WAIVES RULE 318A.a.(1), (2) AND 318A.c.(2) AS IT APPLIES TO THE SURFACE LOCATION OF THE WELLS AND APPROVES THE SURFACE LOCATIONS AS NOTATED ON PAGE 1.

Jon P. File – Manager, Dream Weaver Holdings, LLC.
