TRANSECT RESULTS OF DISTURBED AREA% _____

TRANSECT RESULTS OF REFERENCE AREA% _____

TOTAL % OF DESIRABLE VEGETATION COVER _____

VEGETATIVE COVER _____

Comment:

	Location does not meet Final Reclamation requirements. Wood, metal, liner, materials, down fencing Debris as well as Guy anchors remain on Site; The entire location including the well pad & access road, is not re-contoured, decompacted, or re-vegetated. There is an Approved Subsequent Form 6S on file for this Well; however Evidence of the Well is still visible, casing / fitting, day lighting approximately 36" above ground; has not been cut off 4 ft. below ground level nor is Dry Hole Marker installed. B List, Noxious weeds, Thistle, Knapweed and C List, Common Mullein were noted on Site.	
Corrective Action:	There are three CAs & three CA Dates in this Section. CA#1) Perform Final Reclamation per COGCC 1004 Rules including re-contouring, seeding of site and reclamation of Access road. Install appropriate BMPs to stabilize location until vegetation establishes; all Reclamation Activities to be complete by November 1, 2018. CA#2) Control Noxious Weeds ASAP, at least by 7/23/18. Monitor & control Weeds until Location is Passed for Final Reclamation. CA#3) Complete Plugging procedure as specified in Form 6; Cut four feet below ground level, weld on plate. Consult with COGCC NW Area Engineers for guidance on plugging procedures if needed. Plugging Procedures to be complete by August 2, 2018.	Date 07/23/2018
Overall Final Reclamation	Fail	Well Release on Active Location <input type="checkbox"/> Multi-Well Location <input type="checkbox"/>
