**General Comment:**

[This is a new construction and stormwater inspection. Any corrective actions not addressed from previous inspections are still applicable.](#)

**Location Construction**

Location ID: 454845 CDP: \_\_\_\_\_

Comment: Topsoil stockpile was not identified during the inspection.

Corrective Action: Indicate to area reclamation specialist via field inspection response form, where topsoil is stockpiled for interim and final reclamation. Map or photo of stockpile location is needed.

**Wildlife BMPs:**

Comment: \_\_\_\_\_

Corrective Action: \_\_\_\_\_

Date: \_\_\_\_\_

Comment: Straw wattles, berms, and well pad drainage system are in place and appear to be functional. Additional stabilization measures are needed on well pad cut-slopes and bare soils as no protection is in place to prevent erosion from stormwater run-on, and erosion from exposed, soils.

Corrective Action: Stabilization measures such as wattles for run-on controls, tracking, mulching, etc. are needed on cut-slopes and exposed soils.
