DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

Plan to drill to T.D. of 5426', run IES and Gauss Ray-Sonic plug and abandon as follows:
 Through open-ended drill pipe equalize plugs
 50 sacks 5340-5180
 35 sacks 4300-4200
 35 sacks 3200-3100
 50 sacks 280-220
 5 sacks top of surface pipe.

Weld plate on surface pipe, erect dry hole marker, backfill and clean up location. Verbal approval was received from District Engineer, J. Duletsky, for above program on January 3, 1964.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
