TOTAL % OF DESIRABLE VEGETATION COVER _____

VEGETATIVE COVER _____

Comment: Previous inspections documented insufficient vegetative cover (location has not achieved a total perennial, non-invasive uniform plant cover of at least eighty (80) percent of the surrounding reference), pipe riser, anchors and gravel remaining on location. No reclamation work has been conducted per the corrective action; pipe riser, anchors and gravel remains. Original corrective action and corrective action date remains applicable.

Corrective Action:	Perform reclamation in accordance to COGCC 1000 series reclamation rules and requirements. Remove pipe riser, anchors, gravel and establish vegetation with total perennial, non-invasive uniform plant cover of at least eighty (80) percent of pre-disturbance or reference area levels. Use a seed mixture requested by the landowner, or a mixture prescribed by the local county NRCS. Ensure erosion controls are implemented to stabilize the seeded soil, and continue to monitor and manage this site until Final Reclamation has passed.	Date	05/31/2018

COGCC Comments

Comment	User	Date
Original inspection date 03/26/2017, CA date 5/31/2017. It has been over one year since reclamation work was required per the corrective action date. Operator has failed to address corrective actions. This is being considered for enforcement.	trujilloam	08/03/2018
