Teena and Susan,

I have reviewed the referenced Form 2A Oil & Gas Location Assessment and have the following comments.

- 1) The Latitude and Longitude listed for this location is based on the RESOLUTION 12-65-25-25-2NH well. A review of the Well Plat indicates that the NAD 27 Latitude and Longitude was listed on the Form 2A instead of the NAD 83 Latitude and Longitude. Therefore, I would like to change the Latitude to 40.972650 degrees and the Longitude to -104.616460 degrees.
- 2) In the Water Resources section the estimated depth to groundwater is listed as 220 feet. This appears to be based on water well Permit #154397 which has a total depth of 220 feet but no static water level reported. The previously approved Form 2A for this location has an estimated depth to groundwater of 70 feet. I think this is more accurate as to how shallow groundwater is in this area and would like to change the estimated depth to groundwater from 220 feet to 70 feet.

Please respond to this correspondence by August 25, 2018. If you have any questions, please contact me. Thank you.

Good morning Doug,

I am not sure if I responded to this yet, however I wanted to let you know that I am good with the changes that you are suggesting below. Please let me know if you need anything further.

Thank you,

Teena
