Mr. Young,

Thank you for using the COGCC Online Tool to file your complaint. Your information was entered into document number 200446130. COGCC does not have jurisdiction over traffic on county roads. As such, the traffic portion of your complaint was transferred to the Fremont County Local Government Designee (LGD). I have included the LGD contact information below.

Contact Name: Marshall Butler
Agency: Fremont County Planning and Zoning
Address: 615 Macon Avenue, Room 210, Canon City, CO 81212
Phone: (719) 276-7360
E-mail: planning@fremontco.com

COGCC has closed your complaint and will not issue a notice of alleged violation.

Thank you,
Megan Adamczyk

Location of Concern	Country Road 84, Fremont County
Detailed description of the issue or issues.	It was our understanding that a minimum county road quality should be maintained for all roads frequented by oil and gas. As indicated, this is a county road and it is not being maintained to this standard. The washboards that exist are dangerous as they make it nearly impossible to maintain control at any speed. In fairness, the county grades every couple of months, but the quality of

the road is so bad two weeks later that a small automobile has trouble maintaining control. We call the county regularly and we're told it is on the list, but that the list is large. Meanwhile, drivers on county road 84 are at risk. Given the speed at which the roads deteriorate after grading and the amount of daily traffic on this road, it appears it should be paved. Please come out and drive it yourself and let us know how we can escalate and to whom if this is not your office. Thank you.

Have you contacted any other agencies or local governments related to this issue or issues? If so, please provide details.

Yes, notify Fremont county regularly as the road quality reaches an unacceptable driving hazard
