Comment: Operator has performed final reclamation activities; however, the location has not been contoured to match the surrounding landscape. Germination was observed with patches of bare soil.

Operator indicated the surface owner did not want the location contoured and would be used for future ag use.

Corrective Action:	Operator shall submit a Final Reclamation Variance per Rule 1001.c. attached to a Form 4 Sundry Notice regarding the request to not contour the location.		Date	07/26/2018
Overall Final Reclamation	Fail	Well Release on Active Location	<input type="checkbox"/>	Multi-Well Location
			<input type="checkbox"/>	

COGCC Comments

Comment	User	Date
Overall Final Reclamation: The corrective date is not intended to be the date for which the Operator needs to complete the corrective action but rather the corrective date is the date the location was observed out of compliance.	binschusc	08/14/2018
Please note that until a variance request has been submitted, corrective action(s) and date (s) remain applicable. Until an official request has been submitted, COGCC will continue with business as usual, including follow-up inspections. Also, be aware that a submission for a variance request does not guarantee approval; corrective action(s) and action date(s) would remain applicable until resolved if the request is denied.	binschusc	08/14/2018
