Mike- I have created the following Facility ID:

COGIS - CENTRALIZED EP WASTE MGMT FAC Information

**COGIS - CENTRALIZED EP WASTE MGMT FAC Information**

	<a href="#">Related</a>	<a href="#">Insp</a>	<a href="#">GIS</a>	<a href="#">Doc</a>	<a href="#">Review</a>	<a href="#">COA</a>
<b>Aggregate State Fluid Recycling - #456644 Information</b>			<b>Status: AC</b>			
Facility ID:	<b>456644</b>	Facility Name/No:	<b>Aggregate State Fluid Recycling /37C-16HZ</b>			
Facility Status:	<b>AC</b>	Status Date:	<b>8/17/2018</b>			
Operator Name:	<b>KERR MCGEE OIL &amp; GAS ONSHORE LP</b>	Operator Number:	<b>47120</b>			
County:	<b>WELD - #123</b>	Location:	<b>NESE 7 2N66W</b>			
		Lat/Long:	<b>40.15143/-104.77646</b> Source: ACTUAL based on LatLong			
Comment:	This facility is to recycle and re-condition used fluids for re-use in workover and drilling operations. Additionally, the facility can be used for the production of fresh mud/fluids for workover and drilling operations if needed. This is a pilot project to be converted to a d CE&P Facility. AFischer 20180817					

I will review and pass Sundry Document Number 401316320 then get the F-28 and documents indexed to Facility ID 456644. You will use that ID for submittals related to this Facility.

My apologies for the tardiness and I will get this reviewed. In the mean time, prior to approval of the F-28, financial assurance will be required. Please provide an estimated per Rule 704:

*704. Centralized E&P waste management facilities.  
An operator which makes application for an offsite, centralized E&P waste management facility shall, upon approval and prior to commencing construction, provide to the Commission financial assurance in an amount equal to the estimated cost necessary to ensure the proper reclamation, closure, and abandonment of such facility as set forth in Rule 908.g, or in an amount voluntarily agreed to with the Director, or in an amount to be determined by order of the Commission. Operators of centralized E&P waste management facilities permitted prior to May 1, 2009 on federal land and April 1, 2009 for all other land shall, by July 1, 2009, comply with Rule 908.g and this Rule 704. This section does not apply to underground injection wells and multi-well pits covered under Rules 706 and 707.*

Additionally, during my cursory review, I did not find the local governmental approval per Rule 908...

Operators may be subject to local requirements for zoning and construction of facilities and shall provide copies of any approval notices, permits, or other similar types of notifications for the facility from local governments or other agencies to the Director for review prior to issuance of the operating permit.

I hope to get comments back to you next week.

Thanks  
Alex

Hi Alex,

We submitted the attached Form 28 in June of 2017. Funny how time flies! Could you tell us the status of it?

Please let me know if you need additional information.

Thanks,
