General Comment:

This is a follow-up Final Reclamation Inspection to Document #681900497 for PA Well API #123-07899. Well was plugged and abandoned on 7/11/2013. Any corrective actions from previous inspections that have not been addressed are still applicable. Where corrective actions from the previous inspection report remain unresolved, corrective action dates remain unchanged.

This inspection is being entered for compliance notification and documentation purposes only. This inspection is not intended to provide the operator the opportunity to resolve the alleged violations; documented below, without the possible imposition of a penalty, pursuant to Rule 522.c.(1). Instead, Staff will be following up on this inspection with COGCC enforcement staff.

Comment:

This location is over 4 years out of compliance with Rule 1004. Operator falsely submitted a Final Reclamation Complete Notice on 1/28/2016 (Doc. # 400979886), prior to a failing Final Reclamation Inspection on 1/29/2016 (Doc. # 681900497). Vegetative growth does not meet Rule 1004 standards. Disturbance areas are evident with the lack of perennial vegetative growth and bare soil. Vegetative cover is not uniform or reflective of reference area vegetative growth.

Operator has failed to perform the previous corrective actions to re-contour disturbance areas to match the surrounding landscape and to remove all equipment. Please refer to the attached inspection photos for more detail.

Corrective Action:

Comply with Rule 1004. Previous corrective actions remain unresolved; therefore, corrective action dates remain unchanged.

Date **04/29/2016**
