<p>On July 31, 2018 COGCC SW EPS Jim Hughes conducted an environmental field inspection of the SG Interests Falcon Seaboard 11-90-11 #2. For the most recent field inspection report of this facility, please refer to document #680602932. This location was recently an active drilling site. Equipment and supplies from drilling remain on location. The liner that was beneath the rig and cutting management area has not been completely removed yet. Several areas across the pad have stained soil from equipment leaks.</p>	hughesj	08/24/2018
