

OIL & GAS
CONSERVATION COMMISSION

Azteca New Mex
March 1, 1960

Mr William R Smith
Oil & Gas Conservation Commission,
Denver Colo.

Dear Mr Smith.

The Kroeger 1-A Well was completed for a potential of 12 bbls. of oil per day. It was never produced after recovery of free oil. Total Depth was 3633. Perforations were from 3526 to 3554 also 3572 to 3603, was fracked with 40,000 lbs of sand + 40,000 gal of oil. 5 1/2" Casing set @ 3633 - 2" upset tubing, 5/8" rods.

Weber #1 has 10 3/4" Casing Cemented at 110'

Kroeger #1-B has 10 3/4" Casing set @ 110' cemented.

P.S. Manacos Creek Wells were never drilled

Honolulu Drilling & Exploration Co
of Albuquerque are the operators
on the Kroeger & Weber lease
They have turned them back
to L.L. Pace Products Co.

Sincerely

Forley Cox
