Cherokee Air Drilling, Inc.
3021 Sand Springs Road
Tulsa 7, Oklahoma

Attention: Mr. Martin Bellet, Treasurer

Gentlemen:

Your attention is directed to the following five wells drilled by your company, all of which are located in Section 28, Township 33 North, Range 12 West of the NMPM, La Plata County, Colorado:

- Taylor No. 1-B - NW $\frac{1}{4}$ NE $\frac{1}{4}$
- Taylor No. 3-B - NW $\frac{1}{4}$ SE $\frac{1}{4}$
- Taylor No. 2-C - SE $\frac{1}{4}$ NW $\frac{1}{4}$
- Taylor No. 4-C - SE $\frac{1}{4}$ SW $\frac{1}{4}$
- Taylor No. 4-D - SW $\frac{1}{4}$ SW $\frac{1}{4}$

You prepared an OGCC Form 4 for each well on August 17, 1959, on which you stated the following, "Operations on this lease temporarily suspended pending company decision to deepen or abandon lease."

It has been approximately eleven months since we have heard from you concerning any of these wells, and we have just recently received a complaint as to the surface condition of these holes, and that small amounts of water with some gas is occasionally flowing from the No. C-2 and No. D-4 wells.

We hereby request that you submit, at your very earliest opportunity, a report of the condition of each hole at the surface; and that you furnish a statement as to your future intentions of activity for each of these holes.

Very truly yours,

OIL AND GAS CONSERVATION COMMISSION
