Noble is preparing the information requested; however, we respectfully request additional time to submit a response. The inspection was received 9/11/2018 and we believe three days is not enough time to address this

Inspector does not recommend an extension to provide calculations as much of this information should be on hand; CA should remain applicable until addressed.

It is being noted that Noble has previously received a warning letter regarding topsoil salvage concerns in accordance with 1002.b.(2). Please see doc. #401193990 for additional details

COGCC Supervisor: Support reclamation staff recommendation; data on topsoil salvage should be readily available based on requirements under Rule 1002.b to salvage
