Dear Director Murphy,

Noble Energy, Inc. (Noble) plans to drill six (6) wells on the D21-13 Pad as referenced above.

Rule 318A.c requires a new surface location to be less than 50' from an existing surface well location. The above referenced wells are proposed at a surface location approximately 447' - 611' SW of the nearest oil and gas well (Casey Blue D21-13 API: 05-123-16956).

Noble has obtained written permission from the surface owner by way of Surface Use Agreement.

Noble respectfully requests the COGCC to review the enclosed information and approve the requested exception location request and Applications for Permit to Drill for these wells. If you should have any questions or require additional information, please contact me at your earliest convenience at (303) 288-4232, or CDPNBLPermitting@nbleenergy.com

Regards,
NOBLE ENERGY, INC.
