Nature of complaint: Odor

Field Inspector Actions:

On 9-12-2018, I received a complaint in regard to odor coming from the Rinn Valley East location owned and operated by Extraction Oil & Gas.

On 9-12-2018, I performed a location inspection. Upon arrival I stopped by the complainant's property as it was on the way into the drill pad (approximately 1170' north of the drill pad). I did in fact experience odors consistent with oil based drilling mud (OBM). I visited the location immediately afterward and spoke to rig management. I informed them of the issue, and they will be taking actions to mitigate off location odors.

I have issued a corrective action under rule 805.b

All information reviewed and site inspection information were submitted to the complaint specialist for further review.

Corrective Action: **Odor observed by COGCC staff related to referenced oil and gas location, actions must be taken to stop the odor per Rule 805.b. Additionally, this matter has been referred to the CDPHE for possible further investigation.**
