General Comment:

This is a final reclamation and stormwater inspection in response to a 1001.c, 502.b reclamation variance request.

Operator submitted doc. Doc. #401513053 requesting a variance to waive select requirements of rule 1004.a. to not reclaim the well location, and the access road (from CR 25 to the well).

The portion of this variance is approved to leave the 0.85 miles of access road, beginning at County Road 25, to the point at which the access road turns north to the location (39°56'33.33"N, 102°51'40.27"W).

Approved with the following COAs:

1. All corrective actions identified on a field inspection report must be performed by the corrective action date as a condition of approval for this variance until final reclamation is passed
2. Continue to monitor and manage the site and access road for erosion and noxious weed control until final reclamation is passed.

The portion of this variance to waive reclamation requirements of the well location, and the 300 feet of access road south of the well location, is denied.

Please see the "Reclamation" sections of this inspection.

Comment:

	<p>The portion of variance doc. #401513053 to waive select requirements of rule 1004.a to not reclaim the well location (including the 300 ft. of access road south of the location) has been denied.</p> <p>Operator will be required to conduct reclamation on the location and 300 feet of access road in accordance with COGCC Rule 1004 including, but not limited to, re-contouring/re-grading, compaction alleviation, and revegetation activities.</p>	
Corrective Action:	<p>Perform reclamation in accordance with COGCC 1000 series rules and establish vegetation with total perennial, non-invasive uniform plant cover of at least eighty (80) percent of pre-disturbance or reference area levels. Use a seed mixture requested by the surface owner, or a mixture prescribed by the local county NRCS. Ensure erosion controls are implemented to stabilize the seeded soil, and continue to monitor and manage this site until Final Reclamation has passed. Revegetation activities shall be completed no later than 12/31/2018.</p>	Date 12/31/2018
