Mr. Mendenhall,

Please see the inspection reports for the following two locations. Please call with any questions.

Leonard-Scott #1-12 API 121-10832

5'x15' pit on location that was leaking when inspected on 7/17/08. If the release was > 5 bbl or you cannot determine the volume – submit a Form 19 Spill Report. The pit is not permitted and should be closed in accordance with COGCC Series 900 rules. Submit a Form 27 for COGCC prior approval before closure, and document cleanup of the release.

Price #1-12 API 121-09802

6'x6' Steel culvert being used for produced water disposal was running over when inspected on 7/17/08. If the release was >5 bbl or you cannot determine the volume – submit a Form 19 Spill Report. Make improvements to prevent future spills. Document cleanup of spill on the Form 19.

Sincerely,
