RE: Agreement to utilize existing pad to minimize surface disturbance for the drilling of  
the Canadian Seas DSU, ("DSU");  
Township 8 North, Range 67 West, of the 6<sup>th</sup> P.M.  
Section 25: E/2  
Section 36: E/2  
Weld County, Colorado

Dear Hal:

As we have discussed, Enerplus Resources (USA) Corporation, ("Enerplus") has obtained permits to drill a well or wells, ("Wells") on the above described DSU. Pursuant to that certain Well Proposal Letter dated November 30, 2017, Great Western Oil & Gas Co ("GWOG") has elected to participate in the Wells.

GWOG's participation the Wells is in their capacity as the current Lessee under that certain Oil & Gas Lease with the Colorado State Land Board ("SLB") covering lands including the E/2 of Section ~~25~~<sup>36 NW</sup>-T8N-R67W, ("SLB Lease")

In order to minimize the disturbance to the surface, Enerplus desires to utilize an Existing Pad located in the SW/4 of Sec. 36-T8N-R67W ("Existing Pad") to develop the minerals in the above described DSU. Because GWOG is the current Lessee under the SLB Lease, the SLB requests that GWOG indicate its approval for Enerplus to utilize the Existing Pad to develop the minerals in the above described DSU.

Pursuant to our recent discussions, GWOG wishes to indicate its approval for Enerplus to minimize the surface disturbance by utilizing the Existing Pad to drill the above discussed Wells
