Weld County, Colorado**

Dear Director Murphy,

Noble Energy, Inc. (Noble) plans to drill ten (10) wells on the CC29-11 Multi as referenced above. The surface locations of Noble's proposed wells have been staked outside of the Colorado Oil & Gas Conservation Commission (COGCC) Rule 318A.a. Greater Wattenberg Area Drilling Window and are being permitted as exception locations.

Rule 318A.a. requires surface locations within a square with sides four hundred (400) feet in length, the center of which is the center of any governmental quarter-quarter section ("400' window"); or within a square with sides eight hundred (800) feet in length, the center of which is the center of any governmental quarter section ("800' window"). These wells were located outside of the GWA Window due to a negotiated SUA with the surface owner.

Rule 318A.c requires a new surface location to be less than 50' from an existing surface well location. The above referenced wells are proposed at a surface location approximately 570' - 739' NW of the nearest oil and gas well (Guttersen 23-29U API: 05-123-26134). Noble has obtained written permission from the surface owner by way of Surface Use Agreement.

Noble respectfully requests the COGCC to review the enclosed information and approve the requested exception location request and Applications for Permit to Drill for these wells. If you should have any questions or require additional information, please contact me at your earliest convenience at (303) 288-4232, or CDPNBLPermitting@nblenergy.com.

Regards,  
**NOBLE ENERGY, INC.**
