Weld County, Colorado**

Dear Director Murphy,

Bayswater Exploration & Production, LLC (Bayswater) is planning to drill sixteen (16) horizontal wells on the Leffler 26-A Pad as referenced above.

The surface locations of Bayswater's proposed wells have been staked outside of the COGCC Rule 318A.a. Greater Wattenberg Area Drilling Window and are being permitted as exception locations. Bayswater has obtained written permission from the surface owner by way of signed waiver.

Pursuant to COGCC Rule 318A.c., any new well is to be located within 50 feet of an existing well. The proposed surface locations are approximately 639' - 656' W from the SRC Leffler (API: 05-123-). These wells are being proposed at an agreed upon location in the Surface Use Agreement with the surface owner.

Bayswater respectfully requests the COGCC to review the enclosed information and approve the requested exception location request and Applications for Permit to Drill for these wells.

Respectfully,

A handwritten signature in blue ink that reads "Aaron Cross".

Aaron Cross
Permitting Technician
Agent for Bayswater Exploration & Production, LLC
