Comment: Produced water pit #102612 berms require maintenance. The inside pit berms are overly steep due to wave erosion and the soil on the outside of the berms is eroding due to precipitation and depositing onto the surrounding agricultural land.				
Corrective Action: Maintain the inside and outside of the pit berms and install a trench or other means of controlling the spread of berm soil onto the surrounding agricultural land.				Date: 12/28/2018
