**Comments:**

The Nelson 1-3 was spudded on August 15, 1995. It was determined to be dry, was abandoned and plugged on September 15, 1995. As of March 22, 2018 the site is and has been native grass pasture used for grazing livestock. The reclamation appears successful. No further remediation should be needed. Please see the attached pictures. Multiple attempts have been made to obtain a surface use agreement have been unsuccessful.
