Comment:

<p>Previous inspections required operator to collect, test and submit soil samples from areas of the disturbance/reference and to submit to Reclamation Specialist Trujillo by 12/20/2017. Inspections also required operator to submit a reclamation plan by 2/15/2018, and to conduct reclamation by 3/31/2018.</p> <p>Operator has failed to submit soil sample results and reclamation plan. Unable to find evidence that reclamation has been conducted per corrective actions. Original corrective actions and dates remain applicable. See "COGCC COMMENTS".</p>		Date 12/20/2017
Corrective Action:	<p>Collect and test soil samples from the bare areas of the disturbance, and sample from a reference area, for comparative agronomic soil analysis, with a minimum of the following tests: pH, EC, SAR and organic matter. Report the results attached to a form 4, and provide a map outlining sample locations to COGCC Reclamation specialist Aaron Trujillo by corrective action date of 12/20/2017.</p>	
Overall Final Reclamation Fail Well Release on Active Location <input type="checkbox"/> Multi-Well Location <input type="checkbox"/>		

Storm Water:

Loc Erosion BMPs	BMP Maintenance	Lease Road Erosion BMPs	Lease BMP Maintenance	Chemical BMPs	Chemical BMP Maintenance	Comment
	Fail					
Comment: Stormwater erosion has continued to degrade the location. Silt fence on east end of the location remains in disrepair. Active stormwater monitoring and management does not appear to be occurring and location does not appear to be sufficiently stabilized to prevent ongoing erosion degradation. Stormwater and erosion control BMPs on site do not appear to be maintained or sufficient.						
Corrective Action: Immediately install and/or repair required BMP's per rule 1002.f. Corrective action dates are not being submitted as 1) stormwater management is required to be ongoing until final reclamation has passed, 2) erosion concerns should have been mitigated during reclamation activities, and 3) location may be referred to enforcement.						Date: _____
Pits: <input type="checkbox"/> NO SURFACE INDICATION OF PIT						

COGCC Comments

Comment	User	Date
<p>COMMENT</p> <p>Inspection #682502721, 682503018 and 682503218 required that if the agronomic samples come back showing the the soil is not conducive to vegetation establishment, then operator was required to provide a detailed reclamation plan (including potential amendments) by 2/15/2018, with remediation and/or revegetation activities conducted no later than 3/31/2018.</p> <p>Operator has failed to 1) submit soil samples, 2) submit a detailed reclamation plan and 3) conduct remediation and/or revegetation activities. These corrective actions and dates remain applicable.</p> <p>CORRECTIVE ACTION:</p> <p>1) Submit a detailed reclamation plan (includeing potential amendments) by 2/15/2018</p> <p>2) Conduct reclamation (remediation and/or revegetation) activities no later than 3/31/2018.</p>	trujilloam	12/06/2018
