Qtrqr: NWSE Sec: 20 Twp: 5N Range: 58W Meridian: 6

Latitude: 40.382720 Longitude: -103.888330

### FACILITY - API Number: 05-087- -00 Facility ID: 313873

Facility Name: J. A. FARMS-65N58W Number: 20NWSE

Qtrqr: NWSE Sec: 20 Twp: 5N Range: 58W Meridian: 6

Latitude: 40.382720 Longitude: -103.888330

### CORRECTIVE ACTIONS:

1 CA# 120893

Corrective Action: SEE "COGCC COMMENTS" FOR CORRECTIVE ACTION REGARDING FINAL RECLAMATION

Date: 11/15/2017

Response: CA COMPLETED

Date of Completion: 11/27/2018

Operator Comment: Smith oil is currently conducting pit closure activities. A Form 27 (Doc # 401827890) was submitted on November 6, 2018 proposing the pit closure sampling plan which was approved by COGCC on November 14, 2018. On November 27, 2018 pit investigation activities were conducted. A supplemental Form 27 (COGCC Doc # 401827890) reporting the results was submitted on December 13, 2018. Upon approval of the supplemental Form 27, Smith Oil will conduct reclamation at the location per COGCC Rule 1004.

Additionally, on November 27, 2018 the remedial items under COGCC remediation project # 7403 were

addressed (removal of residual stained soil, non-e&p stained soil removal [stockpiled onsite pending waste profiling/pit closure activities], and former wellhead release soil sampling). This information was submitted in a supplemental Form 27 (COGCC Doc # 401870740) on December 13, 2018. The non-e&p stained soil will be hauled offsite for final disposal during pit closure activities.

The additional samples for comparative agronomic analysis will be collected on 12/19/2018. Results will be reported via a Form 4 sundry notice along with a detailed reclamation plan which will include landowner input.

COGCC Decision: **Not Approved**

COGCC Representative: COGCC Decision "Not Approved". Operator submission of a resolution response "Corrective Action Complete" is an official notice to the state that the corrective action has been addressed in its entirety. Operator states in comments that "this correspondence is provided not to show that corrective actions have been completed". The field inspection report resolution form is not the appropriate avenue for notices.

2  CA# 120894

Corrective Action: Perform maintenance on the east/west section of access road. Install or repair required BMPs per Rule 1002.f. Ongoing maintenance will be required until final reclamation has passed.

Date: 09/20/2018

Response: CA COMPLETED

Date of Completion: 01/04/2019

Operator Comment: The earthwork equipment needed to push in and recontour the pit will cause further damage to the access road while driving in and out. The road will be repaired and/or reclaimed following pit closure activities in accordance with COGCC Rule 1004. Miscellaneous trash/equipment/waddles still onsite will be removed during pit closure and/or final reclamation activities.

COGCC Decision: **Not Approved**

COGCC Representative: COGCC Decision "Not Approved". Operator submission of a resolution response "Corrective Action Complete" is an official notice to the state that the corrective action has been addressed in its entirety. Operator states in comments that "this correspondence is provided not to show that corrective actions have been completed". The field inspection report resolution form is not the appropriate avenue for notices.

#### OPERATOR COMMENT AND SUBMITTAL

Comment: This correspondence is provided not to show that corrective actions have been completed, but to inform the COGCC that the remedial activities requiring attention prior to conducting final reclamation are being completed and reclamation activities are scheduled to address the corrective actions and reclaim the site in accordance with COGCC Rule 1004 as soon as possible.

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct, and complete.
