**Photo 1. View of erosional channel within the southwestern project area, not stabilized. Erosion not addressed.**

**Photo 2. View of erosion occurring along the access road. Stormwater controls are needed.**

**Photo 3. Another view of erosion occurring along the access road where rock and sediment transport and deposition is occurring.**

**Photo 4. View of erosion occurring near the beginning of the access road. Stormwater controls are needed to stabilize erosional downcutting, and sediment transport.**
