1002b. SOIL REMOVAL AND
SEGREGATION _____

Comment _____

Corrective Action _____

Date _____

1002c. PROTECTION OF SOILS _____ Fail _____

Comment _____

Operator has failed to prevent weed establishment on the topsoil stockpile. Note: Operator has seeded the topsoil with desirable vegetation (e.g., blue grama) but weedy, annual vegetation (Kochia) was observed throughout most of the stockpile fill slope areas. Note: For future construction operations, Operator shall consider reducing the slopes of the topsoil stockpile for management purposes and to help protect the topsoil from erosion. Operator has installed temporary erosion controls (i.e., matting) along the slopes of the topsoil.

Corrective Action _____

Best management practices to prevent weed establishment shall be implemented. Control and manage weedy, annual vegetation on all topsoil stockpiles. If reseeding is an option for long-term protection and stabilization of topsoil, then the next favorable seeding opportunity shall be conducted.

Date **01/14/2019**
