Comment: This location does not meet reclamation regulations; insufficient vegetative cover. Well location and area of former pit is predominantly bare and exposed soil with little desirable perennial vegetative cover. See attached photos.

Corrective Action: _____ Date **12/17/2018**

Perform reclamation in accordance with COGCC 1000 series rules and establish vegetation with total perennial, non-invasive uniform plant cover of at least eighty (80) percent of pre-disturbance or reference area levels. Use a seed mixture requested by the surface owner, or a mixture prescribed by the local county NRCS. Ensure erosion controls are implemented to stabilize the seeded soil, and continue to monitor and manage this site until Final Reclamation has passed
