RE: Request for Consent to Plug Well(s)

Dr. Hyatt,

Bison Oil & Gas II, LLC ("Bison") currently has permits (pending or approved) to drill wells from one or more pad locations that Bison secured on a neighboring land owner. It is necessary and required by the Colorado Oil & Gas Conservation Commission ("COGCC") to plug old abandoned oil and gas wells within 2,500 feet of the new wells that are to be drilled. Part of this requirement by the COGCC is to acquire formal approval of the land owner. According to our records, there is one unmarked abandoned well within the COGCC proximity threshold that needs plugging on your lands; specifically, the Kinnison 1-34 (API 05-123-10283), located in the NW/4SE/4 of Section 34 Township 9 North, Range 61W.

Bison respectfully requests your surface owner's consent to plug the Kinnison 1-34 well located on the above described lands that you own. Pursuant to my phone conversation with you on October 16th, 2018, we agree to perform the plugging and associated remediation/reclamation by March 30th, 2019. Please indicate your agreement and consent via signature below to Bison's plugging of the Kinnison 1-34 well using the enclosed envelope at your earliest convenience. Upon the receipt of your executed consent, Bison will coordinate the timing and logistics of the plugging with yourself and any tenants that you may have within at least one week's notice in advance to any operations associated with the plugging of the Kennison 1-34 well on your lands.

Thank you for your immediate attention to this matter and should you have any questions, please do not hesitate to reach me at the undersigned.

Respectfully,

Heath Lovell, CPL

Senior Landman
