General Comment:

This is an Abandoned Location Inspection for Five Wells, listed in Inspected Facilities, above. APDs were Approved in 2005 -2008; Permits Abandoned in 2008-2011. It does not appear that these AL Wells were drilled on Location with Six PR Wells; therefore these are Well Releases on an Active Location.

These Five Wells were passed for Final Reclamation in 2015; however they were inadvertently Checked in Field Inspection in 2018 giving them an Active Priority Status. This Inspection clears the mistaken Active Priority Status.
