September 18, 1961

Admiral Oils Incorporated  
Box 283  
Kimball, Nebraska

Gentlemen:

Today we received your production report for August production from the #1 Stromsco well in the NE NE Section 31, 5N - 59W, Track Field, Morgan County, Colorado.

A review of your well files indicates the last correspondence was a letter from us on July 19, 1961 requesting status. This request was not answered.

With the completion of the well we now must have a completion report OGCC Form 5, electric logs and core analysis, and a "Certificate of Clearance and Authorization to Transport", Form 10. These reports are all delinquent and your attention is called to rules 306 and 311 in that regard.

Your prompt attention to this matter will be greatly appreciated.

Very truly yours,

OIL AND GAS COMMISSION  
of STATE OF COLORADO

William R. Smith, Senior Petroleum Engineer
