**General Comment:**

COGCC Environmental inspection. Follow-up to operator's Sundry Notice submissions (doc #401894506 and #401901818) regarding cuttings management.

Drilling operations were ongoing during inspection with a production cuttings stockpile located at the SE corner of the pad. Western produced water tank insulation had been damaged prior to inspection. See photos. There were no holes or tears observed in visible portion of tank battery liner on inspection date.
