General Comment:

This is an Interim Reclamation and Stormwater inspection.

This inspection is being entered for notification and documentation only and is not intended to provide the Operator the opportunity to resolve the alleged violations without the imposition of a penalty, pursuant to Rule 522.c.

Good Housekeeping:

Type

WEEDS

Comment:

Staff observed unmanaged Russian thistle (*Salsola tragus*) weed establishment throughout the perimeter of the location. Russian thistle is a troublesome annual nonnative weed that easily breaks off at the stem and becomes a tumbleweed. Operator failed to control and manage weeds to prevent weed waste and prevent the spread of seeds onto adjacent lands.

Corrective Action:

Operator shall immediately implement Best Management Practices per Rule 603.f. to control and manage weeds to prevent weed waste and to prevent the spread of dispersing seeds onto adjacent lands.

Date _____

1002E. SURFACE DISTURBANCE MINIMIZATION _____ Fail _____

Comment

This location is not in compliance with Rule 1002.e. It appears unconsolidated soil material from cut slopes, fill slopes and the well pad have not been adequately stabilized to control dust and wind erosion. Staff observed soil particle deposition as a result of wind erosion along the eastern area off Location. Operator failed to reasonably control dust and minimize erosion, alteration of natural features, removal of surface materials, and degradation due to contamination, in violation of Rule 1002.e.(1).

Corrective Action

Operator shall immediately stabilize cut and fill slopes, and stabilize the well pad to abide by Rule 1002 e.(1), as the location should be in compliance at all times. Long-term well pad stabilization shall be implemented.

Date _____

Operator shall take measures to comply with Rule 1004 and control wind erosion throughout the impacted deposition areas off Location.

<p>Comment: This location is not in compliance with Rule 1002.f.(2). It appears unconsolidated soil material from cut slopes, fill slopes and the well pad have not been adequately stabilized. In addition, the eastern Best Management Practice (BMP; sediment trap) has not been implemented in accordance with good engineering practices, has not been maintained to properly function, and does not appear to be adequately sized. Operator has failed to implement and maintain BMPs in accordance with good engineering practices and has failed to minimize erosion, transport of sediments offsite and site degradation.</p>						
<p>Corrective Action: Comply with Rule 1002.f.(2) immediately</p>						<p>Date: _____</p>
<p>Pits: <input type="checkbox"/> NO SURFACE INDICATION OF PIT</p>
