Hi Darla and Crystal,

Please upload the attached pdfs to the file for Spill ID #2145389 (MOC Water Storage Facility) and enter the data included in "Operator NFA Request Correspondence" into a Form 19A to close out the spill record.

Please include the following, as a condition of approval: **"Based on review of information presented it appears that no further action is necessary at this time, and COGCC approves the closure request. However, should future conditions at the site indicate contaminant concentrations in soils exceeding COGCC standards or if surface and/or ground water is found to be impacted, then further investigation and/or remediation activities will be required at the site."**

Thank you,
Steven J. Arauza, P.G.
