Peter,

Received 01/02/2019
Spill 2608530
Doc# 2528941

eForms wouldn't let me submit the SF19 to close this spill out since the IF19 pre-dates eForm 19. Please see the attached soil sample location map and lab analytical results showing that the impacted soil area around the old wellhead spill was remediated and is within Table 910-1 limits.

Thanks,

Dave Castro
