This is a follow up inspection per Doc#'s 688400910, 688400304 and 677400210. All corrective actions have not been addressed at time of inspection. Stained soil appears to have been covered up with gravel. Inspector dug down below surface to see what appears to be stained soil. Weeds were removed at time of inspection. Well has not shown production records since March of 2018. Well is shut in at time of inspection.	silverr	02/13/2019
