Date of Completion: 08/31/2015

Operator
Comment:

Foundation did not remove the submerged line at the time of the well and battery abandonment because a nearby pipeline marker indicated that the line was operated by Kerr McGee/Anadarko. The flange and check valve on the line support the belief that this is a sales line, rather than a flowline. Attached are page from an internal 2016 reclamation inspection showing the pipeline marker in addition to the riser itself.
**Obtained these photos today and the Inspection was just approved last night, or I would have submitted the Factual Review Request

COGCC Decision: _____

COGCC
Representative: _____

2 CA# 122606

Corrective Action: Contact COGCC EPS staff by 2/27/2019.

Date: 02/27/2019

Response: CA COMPLETED

Date of Completion: 02/27/2019

Operator Comment: Alyssa Beard sent an email to Chris Canfield on 2/27/19 with supporting data showing the current status of the open remediation project. If Foundation doesn't hear differently from Mr. Canfield, a subsequent Form 27 requesting closure will be submitted.

COGCC Decision: _____

COGCC
Representative: _____

3 CA# 122607

Corrective Action: Operator shall provide COGCC with documentation that equipment observed in the previous two FIR's was properly removed by 2/27/2019. Also, Operator shall provide COGCC with a scheduled plan and timeline for removal of the submerged equipment by 2/27/2019. Operator shall submit the above requirements via Form 4 Sundry Notice with attachments addressed to Reclamation Specialist Chris Binschus.

Date: 02/27/2019

Response: CA COMPLETED

Date of Completion: 08/30/2015

Operator Comment: The response for this item is similar to the item above. Foundation did remove all of our equipment from the location and contends that the submerged equipment is a Kerr-McGee sales line.
