General Comment:

Orphan Location Inspection. Well was plugged & Abandoned 4/18/2015 under COGCC PRAW Gentry PA project. 300 bbl tank noted in previous Inspections has been removed. A few pieces of Debris (lines/cable/ what may have been posts for electrical installation) were noted though snow cover prevented detailed assessment of debris, flowlines or stained soil recorded in earlier inspections. Reclamation assessment will be needed after snow melt to determine scope of activities for installation of Final Reclamation at site.

Location is small, flat & immediately South of River Road, within the City Limits of the town of Rangely. Surface owner, identified as Mike Hayes (Rio Mesa Resources) should be contacted as to his development plans for the property. It was Surface Owner Request that brought Well to COGCC's attention.
