Subject: State Reportable Release-Hudson Compressor Station

Follow Up Flag: Follow up
Flag Status: Flagged

Good Afternoon,

This email is to notify you of a State Reportable Release due to a release of 1 barrel of E&P fluids outside of lined containment. A piece of tubing became disconnected in the process allowing condensate from the process stream to release to ground. Remediation efforts have been initiated. A Form 19 Spill/Release report is forthcoming. Please let me know if you have any questions. Thank you,

Hudson Compressor Station
SWSW Sec23 2N-65W
