Comment:

3/6/19 Update: Constuction is ongoing. Expect road move to be completed by the end of the month

Section of the lease road ditch where erosion was observed will be entirely reclaimed. During negotiations with the surface owner to allow construction of our Colorado Rivers Pad south of Colorado Lakes, it was agreed that portions of this road would be re-located to the south. As such, this portion of the lease road will be entirely reclaimed and re-seeded. Construction of the new lease road is anticipated to begin the week of March 3rd.

Enerplus will complete an engineering road design of the new road to determine if check dams along the new lease road will be necessary.
