

WELL ABANDONMENT REPORT

This form is to be submitted as an Intent to Abandon whenever an abandonment is planned on a borehole. After the abandonment is complete, this form shall again be submitted as a Subsequent Report of the actual work completed. The approved intent shall be valid for six months after the approval date, after that period, a new intent will be required. Attachments required with the Intent to Abandon are wellbore diagrams of the current configuration and the proposed configuration with plugs set.
A Subsequent Report of Abandonment shall indicate the actual work completed. Attachments required with a Subsequent Report are a wellbore diagram showing plugs that were set and casing remaining in the hole, the job summaries from all plugging contractors used, including wireline and cementing (third party verification) and any logs that may have been run during abandonment.

of _____
*Wireline Contractor: _____ *Cementing Contractor: _____
Type of Cement and Additives Used: _____
Flowline/Pipeline has been abandoned per Rule 1105 Yes No *ATTACH JOB SUMMARY

Technical Detail/Comments:

Intent to plug this well was previously approved under Document 401920112. Whiting Oil and Gas Corporation respectfully requests an extension to September 1, 2019 to complete the approved plugging work. The extension is requested due to weather and snow cover during the winter months making access impractical and to allow the area to dry out in the spring after the snow cover melts to minimize surface impact from pulling plugging equipment into these wells that do not have improved access roads or improved locations.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
