E. C. Johnston Company
P.O. Box 1112
Longview, Texas

Gentlemen:

We are in receipt of a copy of your letter to Mr. W. H. Pattison of the Board of Land Commissioners, regarding the testing of the Anderson State #1 well located in the Doherty Field, Section 16, Township 2 South, Range 65 West, Adams County, Colorado.

For your information, permission of the Conservation Commission must be obtained to produce any well with a high gas-oil ratio, where the gas so produced will be flared. It has been the policy of this Commission to allow tests of these wells so that information will be available for the inducement of a gas market.

Permission is hereby granted for the 90-day testing of the subject well, and you are requested to submit to this office monthly production reports, as required on all producing properties in this State, and a resume of test results following such series of tests-indicating any pressures, capacities, or deliverabilities that were ascertained.

Very truly yours,

OIL AND GAS CONSERVATION COMMISSION

A. J. Jersin, Director
